PROFESSIONAL SUMMARY

I am a development professional with an interdisciplinary background in economics, population studies, and survey & data science. With over five years of experience across West Africa and the United States, I specialize in survey design, monitoring and evaluation, and data management for social programs. My work bridges rigorous data collection and real-world impact, helping organizations measure what matters and translate evidence into more equitable decisions.

EDUCATION

M.S. Survey and Data Science

May 2026

University of Maryland (UMD) • College Park, MD

- Relevant coursework: Fundamentals of Data Collection, Statistical Methods and Machine Learning, Cognition & Survey Measurement, Applied Sampling

M.A. Population Studies

January 2023

Regional Institute of Population Studies, University of Ghana • Accra, Ghana

- Relevant coursework: Population Analysis, Mathematical Demography, Research Methodology

B.A. Economics and Sociology

July 2020

University of Cape Coast • Cape Coast, Ghana

WORK EXPERIENCE

Graduate Coordinator, Research & Assessment | *University of Maryland*

Aug 2024 – Present

College Park, MD

- Design and administer 10 survey instruments per academic year covering 9,000+ residential students, achieving response rates above 50%; conducted statistical analysis to assess residential program outcomes.
- Process and manage large institutional datasets in R and Excel, creating variables, merging datasets, and performing data cleaning, producing analysis ready files with documented processing decisions.
- Develop 3 interactive Tableau dashboards and produce technical memos, figures, and charts for reports; deliver presentations to multidisciplinary teams to support policy and program decisions.

Monitoring & Evaluation Officer | *Youth Advocates Ghana (YAG)*

May 2023 – May 2024

Nsawam, Ghana

- Evaluated the effectiveness of youth-focused social programs in governance, sexual and reproductive health, and education targeting underserved populations, using quantitative and qualitative data to assess outcomes and inform improvements.
- Designed and implemented Monitoring & Evaluation (M&E) frameworks for 4 funded programs, developing outcome measures and managing data collection across 13 field sites with methodological consistency across all project cycles.
- Established the organization's first structured reporting system, introducing pre/post activity evaluations and a centralized document repository.
- Trained 6 staff and partners on M&E tools and survey implementation; produced analytical reports translating program data into donor facing findings.
- **Key achievement:** Built M&E frameworks for 4 programs, improving data management and reporting accuracy and directly contributing to sustained donor support over a 3-year project lifecycle.

Data Analyst | Concept Make It Happen (CMIH)

Mar 2023 – May 2023

Accra, Ghana

- Deployed surveys across all regions of Ghana, replacing manual data collection and reducing transcription errors; built and maintained a national merchandiser database enabling rapid field analysis.
- Analyzed operational and market data using Excel and Power BI, identifying merchandising trends and developing dashboards that supported leadership decision-making.
- **Key achievement:** *Developed a national merchandiser database and customized data collection tools, improving field data collection efficiency and enabling rapid analysis for strategic decisions.*

MEL Programme Assistant | West Africa Civil Society Institute (WACSI)

Sep 2020 – Dec 2021

Accra, Ghana

- Supported a mid-term evaluation spanning all 15 West African countries, contributing to design, data collection, and analysis phases assessing impact across 20 training activities for nonprofit beneficiaries.
- Collected qualitative data via telephone interviews and quantitative program data; improved civil society partner database accuracy and contributed to monitoring reports documenting lessons learned.
- **Key achievement:** *Improved accuracy of a key civil society partner database, directly supporting WACSI's network management and capacity-building objectives across West Africa.*

SELECTED ACADEMIC PROJECTS

Membership Survey Consulting Project – Rotary Club of Ann Arbor

- Managed end-to-end survey lifecycle including literature review, instrument design, administration, and quantitative analysis; generated actionable insights and comprehensive reports for organizational stakeholders.

Multi-Stage Survey Sampling Design – Detroit Transportation Study

- Designed a multi-stage probability sample applying Probability Proportional to Size (PPS) sampling to support efficient and representative fieldwork planning.

Survey Methodology & Data Quality Analysis – ESS Round 10

- Applied survey-weighted statistical models to assess data quality across multiple countries; developed codebook and data documentation to support reproducibility and transparency.

TECHNICAL SKILLS

Statistical & programming: R, SQL, STATA, SPSS, Python Excel, Git/GitHub, KoboToolbox, REDCap, Qualtrics, SurveyMonkey, Google Forms

Data visualization: Tableau, Power BI

Methods: Survey Design & Methodology, Applied Statistics, Statistical Modeling, Program Evaluation, Data Quality Assurance, Survey-Weighted Analysis, Sampling Methods

Documentation & workflow: R Markdown, Quarto, Codebook Development, Reproducible Research Workflows, Microsoft Office Suite, Google Suite

AWARDS & PROFESSIONAL DEVELOPMENT

- EvalYouth Global Mentoring Program (2025) - selected for global program enhancing evaluation methodology, design, and outcome measurement.
- Blossom Academy Data Science & Analytics Fellowship (Jan – Apr 2023) - one of 50 selected from over 1,000 applicants for fully sponsored fellowship; trained in Excel, SQL, Python, Power BI, and data storytelling.
- DAAD (German Academic Exchange Service) Scholarship (2021) - awarded for academic excellence and research potential to attend the Regional Institute for Population Studies, University of Ghana.
- Humentum/CRS MEAL for Development Training, 2021.

Affiliations: American Evaluation Association • EvalYouth Global Network • Ghana Monitoring & Evaluation Forum • Women in Research, Monitoring, Evaluation and Learning

LEADERSHIP & VOLUNTEER EXPERIENCE

Co-Founder & Research and Evaluation Lead | *Impart Foundation*

2016 – Present

Ghana

- Designed data collection tools and evaluated program effectiveness for education and digital skills initiatives serving underserved youth, tracking outcomes to guide program improvements.
- Oversee grant proposals, funding reports, and strategic partnerships to secure and maintain resources.

Community Advisory Team Member | Digital Health and Rights Project

Feb 2024 – Feb 2026

Accra

- Served on Ghana's Community Advisory Team for a multi-country participatory research consortium examining digital health governance and human rights for young adults in low- and middle-income countries.
- Contributed to research advisory processes, digital rights advocacy, and youth leadership activities spanning Ghana, Colombia, Kenya, and Vietnam.

Chief Rapporteur | *5th African Youth SDGs Summit*

August 2023

Lusaka, Zambia

- Led a 6-member team drafting official reports and a declaration advancing the African Union's Agenda 2063 and the Sustainable Development Goals.

Program Representative | *Regional Institute of Population Studies, University of Ghana*

Jan 2022 – Jan 2023

Accra, Ghana

- Coordinated academic activities, acted as liaison between students and administration, and improved academic support systems during the institution's hybrid learning transition.
